STEP 1: PG. 4
List three observations about the pictures.
Make one inference about the pictures.
OUTPUT: AN INGREDIENT STORY

STEP 2: PG. 4
List three new observations about the pictures. Make one inference about the pictures.
OUTPUT: AN INGREDIENT STORY

STEP 3: PG. 4
List three new observations about the pictures. Make one inference about the pictures.
Output: An Ingredient Story

On pg. 4, use your notes about the ingredients to write a story that includes all of your observations and all of your inferences. Start with the following questions:

1) What type of meal would use all of these ingredients? Would this meal be healthy? What is your hypothesis?

2) How do your observations support your hypothesis?
